Subject: RE: Oxitec eco DERs secondary review
Attachments: Vol-15-MRID-50443514-ESA-NoImpact-DER-111818.docx; Mosquito-Bat-References-0219.docx

Hi Cassandra,

I am attaching a DER that was never finalized as it was for the OX513A EUP submission. It may have some worthwhile references for your consideration when looking into the eco review. I'll also attach some bat references I noted, some of which are cited in the DER. If you want the papers, let me know.

You can send me your DER drafts as they are completed. That way I can get to them earlier (hopefully).

Thanks,

Chris

Subject: Oxitec eco DERs secondary review

Hi Chris,

I was informed that you will be the secondary reviewer for the Oxitec eco DERs that were transferred to me from Amanda. I was wondering if you would like to receive them as I have drafts complete versus all in one batch when I am done? I'm hoping to complete them by the end of next week or sooner if possible. Only 2 of them are study DERs (fish and aquatic invert acute) and the remaining 6 are waiver requests.

Also, do you happen to have an endangered species assessment or wild mammal waiver request from the first generation product?

Thanks!
Cassie
